Established in 1864, SIGVARIS GROUP is, and has always been, a family-owned company. Founded and headquartered in Switzerland, our passion for helping people feel their best is why we've been a global market leader for 155 years and counting.

Our compression garment portfolio includes Medical, Consumer Health Care and products for Medically Complex Extremities that are specifically designed to restore, assist and enhance people's lives. We are renowned for making exceptional products that combine advanced technology and quality craftsmanship with diverse styles that fit our modern customers' lives.

When heritage, competence, and dedication come together, there's no limit to where we'll go.

Live your life. Be yourself.

Be yourself.

ESSENTIAL

Support Yourself

Sigvaris Essential solutions always meet your customers' needs. These straightforward stockings are an everyday go-to for people who seek the comfort, support, and reliability of traditional therapeutic socks and stockings.

Why choose **Essential**?

- Reduce swelling and discomfort
- Long-distance travel
- Everyday comfort and reliability

STYLE

Express Yourself

Choice is empowering, and fashion can be as unique as you are. With Sigvaris Style, personality will shine as your customers select from distinctive hosiery and socks.

Why choose **Style**?

- Fashionable, modern patterns and designs
- Special occasion and formal wear
- Our most luxurious feel

MOTION

Push Yourself

When daily comfort for hard-working legs is required, put your customers in motion. Sigvaris Motion socks offer all day strong support for people with active lives.

Why choose **Motion**?

- Cushioned sole for added comfort
- Durable thermoregulating wool
- Moisture-wicking yarns

500

Specialty NATURAL RUBBER

for women & men

Natural Rubber offers patients a durable, long-term containment solution for compression therapy with minimal fibre fatigue throughout the day.

Compression Level

30–40mmHg

40–50mmHg

50–60mmHg

Features and Benefits

Natural Rubber

Durable

Wide Size Range

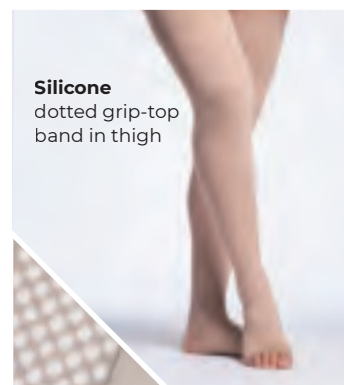

- Ideal for patients with more serious indications
- Comfortable silicone dotted grip-top band on thigh styles to prevent slipping
- Extended sizing for a custom-like fit

Fibre Content

- 70% Nylon, 30% Natural Latex Rubber (Calf & Thigh-high styles)
- 75% Nylon, 20% Natural Latex Rubber, 5% other fibres (Pantyhose style)
- **Caution:** contains natural rubber latex that may cause allergic reaction

Best Suited for

- Severe varicosities
- Chronic edema post DVT
- Severe venous stasis
- Prevention of ulcer recurrence
- Early stages of lymphedema
- Active venous ulcers
- Ideally paired with the Cotton Underliner (page 87)

MERINO OUTDOOR SOCKS

for women & men

Compression Level

15–20mmHg

Also available in 20–30mmHg, see page 36

Features and Benefits

- » Soft and comfortable
- » Natural properties of wool make these socks odour resistant
- » Mesh flex zones for comfort and ventilation
- » Cushioned, padded soles protect against blisters
- » No compression in heel and instep for ease of donning
- » Thermoregulating for year-round comfort

Fibre Content

- » 67% Fine Merino Wool, 26% Nylon, 7% Spandex
- » Latex free

Best Suited for

- » Tired, heavy, restless, aching legs
- » Outdoor activities

sigvaris

Medically Complex Edema & Inelastic Wraps

MEDICALLY COMPLEX EDEMA & INELASTIC WRAPS

The SIGVARIS GROUP line of products for medically complex edema (MCE) are for the treatment and management of conditions impacting the lymphatic and venous circulatory systems.

The product portfolio contains ready-to-wear garments for the active treatment and maintenance of lymphedema and for patients managing chronic venous disorders in the lower extremities.

Sigvaris is looking towards a brighter future with new therapies for complex venous and lymphatic diseases. Our inelastic wraps deliver maximum therapeutic results with increased patient compliance.

Why Choose Inelastic Wraps?

- Adjustable pressure
- Large variety of solutions

Compreflex® Standard CALF & FOOT

20-50mmHg

Colours

Black

Beige

When to Use

- Adjustable ranges of resting compression is desired (20-50mmHg)
- Non-attached foot piece is desired
- No compression in the liner is desired
- Patient requires a calf and foot garment

Conditions

- Lymphedema
- Edema
- Chronic Venous Disease (CVD) including, but not limited to, ulcer due to venous stasis
- Lipedema

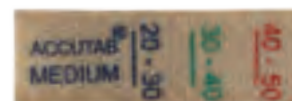

Compreboot® Standard

Variable compression
(see page 82 for details)

Basic Liner

Non-Compressive
(see page 81 for details)
One pair of Liners
included with each leg

Accutab® Devices

Accutab Devices

Accutab Devices

Easy To Use

- Gently lay the Compreflex straps in place without stretching the fabric
- Attach one Accutab at the end of each strap
- Pull each strap to the prescribed dosage indicated by the lines on the Accutab: 20-30, 30-40, or 40-50mmHg

5 Accutabs are shipped for Regular Length and 6 Accutabs are shipped for Tall Length products

Compreflex Strap Extender

- Provides up to 10cm of additional circumferential size range to Compreflex calf wraps
- Detaches easily
- Potential solution for patients outside of standard size ranges of Compreflex calf wraps or needing custom size

Symptoms / Indications	Compression Level at the Ankle
- Tired, achy legs - Occupational or evening edema - Leg discomfort from long hours of standing or sitting - Prevent varicosities & swelling during pregnancy - Preventative for legs predisposed to risk - Reduce swelling during travel - Prevent DVT during travel	15–20mmHg
- Heavy, fatigued, aching legs - Mild edema in lower extremities - Mild varicosities with minimal edema - Mild varicosities during pregnancy - Lymphedema upper extremities - Post-procedure of small veins - Prevention or management of DVT <i>Note: A prescription is recommended for stockings with the indications of 20mmHg or higher</i>	20–30mmHg
- Moderate varicosities with mild to moderate edema (also during pregnancy) - Post-procedure of larger veins to maintain treatment success - CEAP C3 (edema), C4 (skin changes without ulceration), C5 (skin changes with healed ulceration), C6 (skin changes with active ulcerations) - Management and treatment of DVT or Post-Thrombotic Syndrome - Superficial phlebitis - Lymphedema after decongestant therapy to maintain reduction - Orthostatic / postural hypotension - Post-fracture, post-traumatic edema	30–40mmHg
- Lymphedema after decongestant therapy to maintain reduction - Severe Post-Thrombotic Syndrome - Severe varicosities and/or edema	40mmHg or higher
- Severe arterial insufficiency, intermittent claudication, ischemia - Uncontrolled congestive heart failure	Contraindications
- Skin sensitivities or allergies - Advanced neuropathy with sensory loss in leg or foot - Diabetes with arterial compromise - Confinement to bed or non-ambulatory use unless otherwise prescribed by the physician - Eczema, hypodermatitis, dermatosclerosis, dermatitis	Cautions
The therapeutic effect of graduated compression stockings is based on the compression level. With the proper CEAP classification, the correct compression level at the ankle can be chosen. For more severe symptoms, consult with a vascular specialist.

REUSABLE FACE MASK

Comfortable • Durable • Breathable

Double-layered with earloops & pocket
Made with soft washable microfiber

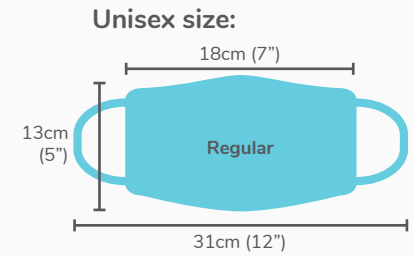

Helping people feel their best is our priority

Sigvaris has been a trusted healthcare solutions partner for over 150 years. While we continue to make medical compression socks and hosiery, we have rapidly adapted our production facility in Peachtree City, Georgia to also produce cloth face masks. We're pleased to be able to help people follow healthcare guidelines with CoverOne, a high-quality cloth face mask.

Features and Benefits

- Constructed of two layers of soft microfiber
- Earloops made with microfiber yarns fit comfortably on the ears
- Features a pocket to accommodate an optional disposable filter (available to order)
- Adding filter makes CoverOne a three-layer mask
- Knit-in nose zone minimizes mask sliding
- Text embossed on the mask to indicate which side goes against the face and top vs. bottom orientation
- Hand or machine washable (Sigvaris Washing Solution may be used). May tumble dry on low heat or delicate setting. Do not bleach or iron
- Unisex, One size fits most adults
- Available in Black, Blush Pink, Coyote Brown, Denim, and Desert Yellow
- Fibre Contents: 89% Nylon, 11% Spandex. Latex free
- Manufactured in an ISO 13485 manufacturing facility
- Patent pending

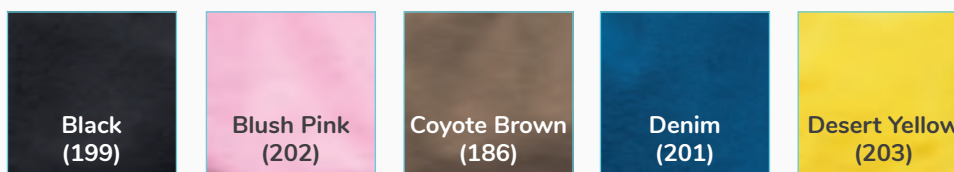

Series	Description	Size	Colours
M901	Mask with Pocket	1 - Adult Regular	Black (199) Blush Pink (202) Coyote Brown (186) Denim (201) Desert Yellow (203)

This product is non-returnable and cannot be exchanged due to health and hygiene reasons

Product Code Example: **M9011199**

Series	Size	Colour	Quantity
M901	1	199	One mask

5 Layers PM2.5 Activated Carbon Filter

Series	Description
M905100	PM2.5 Activated Carbon Filter Single 10-pack

Disclaimers / Cautions

- This is a non-medical grade cloth face mask and is not intended for medical use.
- Cloth face coverings should not be placed on young children under age 2, anyone who has trouble breathing, or is unconscious, incapacitated or otherwise unable to remove the mask without assistance.
- The manufacturer is not liable for damage/injuries which have been caused by improper handling or misuse.

Guidance for Canada / Recommandations pour le Canada

The mask must not be shared with other individuals and it does not provide complete protection against contraction of the virus. This mask may not be effective in blocking virus particles that may be transmitted by coughing, sneezing or certain medical procedures.

This product is non-returnable and cannot be exchanged due to health and hygiene reasons. As customer satisfaction is a high priority, please contact us with any questions about your order.

Patent pending.

Term	Definition	Sigvaris Usage
CHRONIC VENOUS DISEASE (CVD)	A disease state comprised of a wide range of disorders including tired, achy legs, varicose veins, Chronic Venous Disease (CVD), skin issues, and venous leg ulcers (open and healed).	SIGVARIS GROUP manufactures MEDICAL and CONSUMER HEALTH CARE products to help reduce the risk of, improve symptoms of, and provide treatment for CVD.
DOUBLE-COVERED YARN	Spandex fibres are covered twice with yarn to prevent bare spandex from touching the skin for improved wearing comfort.	Used in nearly all SIGVARIS GROUP graduated compression socks and hosiery to create products that are easy to put on and take off, while also providing greater comfort.
DEEP VEIN THROMBOSIS (DVT)	A blood clot in a deep vein, most commonly in the lower leg or thigh.	SIGVARIS GROUP cares about DVT prevention. Clinical evidence supports the use of graduated compression to help prevent DVTs and the more serious complication of PE (Pulmonary Embolism), which can be life-threatening.
GRADUATED COMPRESSION VS. ANTI-EMBOLISM	Graduated compression is for ambulatory patients, whereas anti-embolism stockings are for non-ambulatory patients.	SIGVARIS GROUP offers true graduated compression, meaning products are tightest at the ankle and decrease in pressure going up the leg to help improve circulation.
HYPOALLERGENIC	Designed to minimize the chance of an allergic reaction.	SIGVARIS GROUP offers Latex free products and cotton fabrics for those with sensitive skin and allergies. Also, many SIGVARIS GROUP accessories are designed for consumers with sensitive skin.
ISO CERTIFIED	SIGVARIS GROUP is ISO (International Organization for Standardization) certified, indicating we have the required quality systems in place.	SIGVARIS GROUP follows ISO Standard 13485:2016 for our products manufactured in North and South America.
MICROFIBER	An extremely fine synthetic fibre knitted into textiles with the texture and drape of natural-fibre fabric. This fabric has excellent breathability.	Used to create products with a soft and comfortable feel. Find this fibre in 840 Soft Opaque, 830, 143 & 183 Microfiber Patterns, and 820 Microfiber.
mmHg (MILLIMETERS OF MERCURY)	Defined as the extra pressure generated by a column of mercury one millimeter high; the same unit of measurement used for blood pressure.	SIGVARIS GROUP products are offered in several ranges of compression levels based on this measurement.
MERINO WOOL	Merino is the softest and finest wool available in the world and is inherently itch-free.	SIGVARIS GROUP uses this premium wool yarn to create soft products that are thermoregulating for use in all seasons. Used in 422 Thermoregulating Wool, 421 MERINO OUTDOOR SOCKS, 240 Merino Wool, and 152 & 192 ALL-SEASON MERINO WOOL.
SEA ISLAND COTTON	Sea Island Cotton is the rarest cotton in the world and represents the finest in cotton softness.	SIGVARIS GROUP uses the highest-quality yarns in the industry to create products that are best in class. Look for this fine quality cotton in our 220 Sea Island and 151 & 191 SEA ISLAND COTTON SOCKS.
SENSINNOV	A patented SIGVARIS silicone top band that gently grips the skin and keeps the band in place all day.	This top band is featured in 780 Sheer, 840 Soft Opaque, 710 Patterns, and 820 Microfiber to help keep thigh-high stockings in place all day long.
SUPIMA COTTON SUPIMA® WORLD'S FINEST COTTONS	Supima accounts for only about three percent of annual cotton production in the United States. Its fineness and longer staple length make it a premium cotton fibre.	SIGVARIS GROUP uses this premium cotton yarn in the 230 Cotton, 220 Sea Island and 151 & 191 SEA ISLAND COTTON SOCKS, 146 & 186 CASUAL COTTON, and 360, 142 & 182 Cushioned Cotton products, making them comfortable and ideal for those with sensitive skin.

Please follow these instructions carefully to determine the correct size for different product styles.

Measurements should always be taken in the following order, and as early in the morning as possible when swelling is minimal.

CALF STYLE

Open/Closed Toe

1	Measure the ankle circumference at the narrowest part of the ankle, above the ankle bone. Use the appropriate series sizing chart to determine if ankle is SMALL, MEDIUM, LARGE or X-LARGE. Note: This should be your first measurement.
2	Measure the calf circumference at the fullest part of the calf.
3	Determine the calf length by measuring from the floor up to the bend of the knee. This measurement is taken on the outside of the leg.

PANTYHOSE AND THIGH-HIGH STYLE

Open/Closed Toe

1	Measure the ankle circumference at the narrowest part of the ankle, above the ankle bone. Use the appropriate series sizing chart to determine if ankle is SMALL, MEDIUM or LARGE. Note: This should be your first measurement.
2	Measure the calf circumference at the fullest part of the calf.
3	Skip Step 3 (but refer to General Guidelines #6 below).
4	Measure the thigh at its widest circumference.
5	Determine the leg length by measuring from the floor up to the gluteal fold.
6	Determine the hip circumference by measuring the widest part of the hips.

GENERAL GUIDELINES

1	Measurements should always be taken as early in the morning as possible, when swelling is minimal.
2	Measure against bare skin, not over clothing (Steps 1–5).
3	The measuring system is based on having the foot flat against the floor and the calf or leg at a right angle to the foot (see images to right for examples).
4	Measurements should be taken by pulling the tape around the leg so that it is snug but not constricting.
5	Length measurements should be taken from the ground up.
6	Take all measurements, even if the patient only requires calf-length products, as the patient might decide at a later date to purchase additional styles.

1 Ankle circumference directly above ankle bone

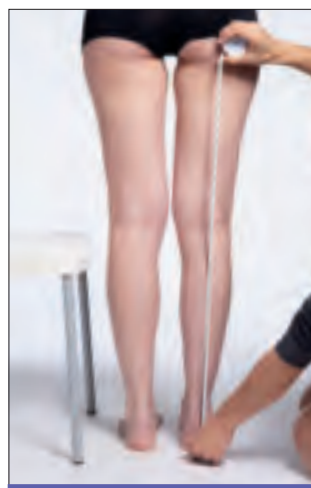

2 Calf circumference at fullest part of the calf

3 Calf length from the floor to the right-angle bend of the knee

4 Widest circumference of the thigh

5 Leg length from the floor up to the gluteal fold

6 Circumference at the hip

How to Order Medical and Specialty Products

Series Number 23 = Cotton (See individual pages for series number)	Compression Level 1 = 15–20mmHg 2 = 20–30mmHg 3 = 30–40mmHg 4 = 40–50mmHg* 5 = 50–60mmHg*	Product Style C = Knee-high or Calf (See individual pages for available styles)	Size ML = Medium Long (See individual pages for sizing)	Gender M = Men W = Women O = Open toe	Colour 99 = Black (See individual pages for available colours)
23	2	C	ML	M	99
* 40–50mmHg and 50–60mmHg available in Natural Rubber only					
To order Plus Calf with Grip-top or Plus Size Pantyhose (860P for women only): add "/P" after the colour in the ordering code					
To order Calf Style with Grip-top: add "/S" after the colour in the ordering code (see product pages for availability)					
To order Thigh with Waist Attachment: add "/L" to indicate the Left leg or "/R" to indicate the Right leg after the colour in the ordering code (860W and 500W only)					
To order Motion High Tech, Motion Thermoregulating Wool, Swiss Mountain Sock, and Canada Mountain Sock: The letter for Gender is not used in the ordering code. Example: 412CSM59 = Motion High Tech, 20–30mmHg, Closed toe Calf, Size Small Medium, Colour Red					

How to Order CONSUMER HEALTH Products

Series Number 120 = SHEER FASHION (See individual pages for series number)	Product Style N = Thigh-high (See individual pages for available styles)	Size A = Small (See individual pages for sizing)	Colour 33 = Honey (See individual pages for available colours)
120	N	A	33
To order ATHLETIC RECOVERY SOCKS, PERFORMANCE SLEEVES, MERINO OUTDOOR SOCKS, and EVERSOF DIABETIC SOCKS: Size is only one letter and the letter for Gender is not used in the ordering code. Example: 421CL31 = MERINO OUTDOOR SOCK, 15–20mmHg, Closed toe Calf, Size Large, Colour Olive

WHY SIGVARIS GROUP?

We produce the best compression garments to enhance our customers' health and quality of life.

We are dedicated to helping legs look and feel their best. Using premium yarns, we've spun ourselves into being the worldwide leader in graduated compression socks and hosiery by embracing our core beliefs of QUALITY, COMFORT, FIT and INNOVATION. Staying true to these values, we are continuing our efforts by expanding our business to help customers with medically-complex needs.

More than 20 people handle our products from start to finish, ensuring every garment is of the highest quality.

We offer the most comfortable fabric options available, including the finest cottons, wools and microfibers. We double-cover the yarns for ease of donning and doffing.

We offer premium products designed for all shapes and sizes, from petite to plus, including compression for a broad spectrum of edemas.

All of our products are designed using the most recent human data measurement studies.

A proper fit is key to adherence.

We use the finest textiles and materials to create modern styles in our circular-knit products, while maintaining medical efficacy. We continue to invest in medical research to help customers.
